

A LIGHTWEIGHT AND DURABLE ALTERNATIVE CARTRIDGE

Enjoy the most user-friendly cartridges available with the aluminum TRUMPF-style tool cartridge from Wilson Tool International. These are a lightweight yet highly durable option, favored by TRUMPF punch press operators.

The Wilson Tool proprietary cartridge is constructed of 6061 T6 aluminum, making it much tougher than plastic, but lighter than steel. By marrying the best of both worlds, this cartridge is an ideal alternative to cartridges made with traditional materials.

Key Features

- Hard black anodized finish is wear resistant
- Arms and latches are treated with Nitrex® to improve wear
- Mounting clip to rail is ToolMaster or Truma Tool ready
- Durable, cost effective die plate available
- Comes with ID magnet to mark size and shape information

TRUMPF is a trademark of TRUMPF GmbH + Co. KG.
