

**STRONG, CLEAN, FAST
CONNECTIONS...**

**...WITH NO
WELDING OR GRINDING**

♦ **Reduced costs**

Cut out welding, spot welding or other expensive fastening methods. Your components can now be assembled by anyone.

♦ **Strong**

This tool produces an incredibly strong virtually unbreakable joint even in dissimilar and coated materials.

♦ **Clean**

No need to for any grinding or finishing processes and the corrosion resistant properties of your material are not degraded in any way.

♦ **Fast**

Parts just push together. It couldn't be easier.
